to both parties to take part in the coming National Convention to be held at Philadelphia, on the 14th of August, setting forth the number as well as the manner in which the delegates are to be chosen; we deem it expedient for the Democratic party in this Congressional District, to proceed to the selection of good and true men, as Delegates, to represent our party in the Convention. -It is a fact, that the proposed Convention which is intended to give the Union-loving people, from all sections of our country, an opportunity of conferring with each other on the important questions of the Union, is opposed by the Radical Republicans. It may not suit the plans of some of the men who still consider the movement a trap to ensnare Democrats ; but we have already explained, through our columns, why we consider this Convention, and the participation therein by Democrats an advantage, if composed of the right kind of men, to the country and the great Democratic party.

We know from a diligent search in our Re- so long, will not now be given up. publican exchanges that the Radical Republicans who have been ruling our country for the last six years are opposing it, because it looks to the restoration of the Union. Besides it is a historical fact that the Democratic party has always supported national men and national principles, no matter from what party, or what section they come. We believe that this movement will give great pleasure to the people of the Southern States. It will encourage the now discouraged people of the South and give them the grand assurance that the great Democratic party, as well as a goodly number of Conservative Republicans, are willing to unite with them the restoration of the Union.

In participating in this action, on the part through so many days of peril, and secured for us so many years of peace and prosperity. The importance of this Convention after all, must depend on the action of the nipulated and all will yet be well. Let us have true men as Delegates.

The question of who shall be the next Democratic candidate for Congress, in this District, seems to give the friends of Ulysses Mercur, and others, a great deal of uneasiness at this time. We admit that we are not in possession of sufficient information in the matter as to indicate upon what individual the honor will fall. And it is not the easiest thing in the world to know, at all candidates. As there are several prominent names already mentioned, by the different newspapers in the District, and many more that might be mentioned, we again confess our inability to say who the man will be .-We do know, however, of some good men honor, is a question which circumstances will Uniontown, Pa.: hereafter determine. That the Republican party are doing no good for the country, but, by obstinate blundering and sectional legislation, are dragging us further into the mire, can be proved by the following extract from one of their leading journals, the New York Evening Post. The Republican party had the good for-

It gained thereby to itself a name, and a moral influence with the American people, which, with moderately wise mangement, should secure it power for half a century. This was the task before the leaders of the party when Congress met last December. More than seven months have passed, and what has been accomplished? It is an undeniable truth, that Congress has not been economical; it has not simplified the tax system; it has not brought us nearer to specie payments; it has tried to pass a tariff which would compel a great part of the nation from profitable to confessedly unprofitable employments, cripple our commerce, and lessen our revenue. HOSTETTER'S STOMACH BITTERS. Man wants a Toxic - no uncommon want-And every year and month brings forth a new one Which, after cramming the gazettes with cant,
